

ID	4
Summary	The user can add more items to the cart than there are in stock
Steps to reproduce the behavior	1) Open the main page 2) Log in (login: an@mail.ru, password: 1111) 3) Click on the product 4) Specify more units of the product than there are "In stock" in the "Quantity" field 5) Click "Add to Cart"
Actual result	More items have been added to the cart than there are in stock
Expected result	The user can't enter more units of the product than there are in stock
Screenshots	 <p>The screenshot shows the Litecart website interface. At the top, there's a header with the Litecart logo, currency options (RUB, Belarus, Change), and a cart icon showing 11 items for 16,500. The main content area displays a product page for a red rubber duck. The product is labeled '[untitled] RD003' and is priced at 1,500. It includes a 'Quantity' field set to 11 and an 'Add To Cart' button. The page also features a search bar, a list of categories, a 'Recently Viewed' section with four small product images, and an 'Account' section with a 'Customer Service' link. Social media icons for Facebook, Twitter, Google+, and LinkedIn are visible at the bottom of the product section.</p>
