

ID	1
Summary	There is no "Save" function in the print order copy
Steps to reproduce the behavior	<ol style="list-style-type: none"> <li>1) Open the main page</li> <li>2) Log in (login: an@mail.ru, password: 1111)</li> <li>3) Click on the product</li> <li>4) Click "Add to Cart"</li> <li>5) Go to checkout (in the upper right corner)</li> <li>6) Click the "Confirm order" button .</li> <li>7) Go to the link "Click here for a printable copy"</li> </ol>
Actual result	The copy of the order has the "Print" and "Cancel" functions
Expected result	The copy of the order has the functions "Save", "Print" and "Cancel"
Screenshots	 <p>The screenshot shows the 'Order Copy' page on the Litecart website. The page is divided into two main sections. The left section contains shipping and payment details, including addresses, phone numbers, and a table of items. The right section is a sidebar with printing options, including printer selection, page range, and number of copies. The table of items shows 3 items with a total price of 4,900 RUB. The sidebar has a 'Печать' (Print) button and an 'Отмена' (Cancel) button.</p>
